PROACTIVE SECURITY PROGRAM

# Focus on Your Business. We'll Handle the Threats.

Stop worrying about breaches, ransomware, and compliance. Get 24/7 protection with defense-in-depth security designed for organizations with 25-200 users.

| 24/7 | 99.9% | 365 Days | 2x/Year |
|---|---|---|---|
| Threat Monitoring | Uptime SLA | Log Retention | Security Reviews |

## The Challenge

- Failing cyber insurance assessments
- No visibility into active threats
- Employee phishing incidents causing breaches
- Limited IT bandwidth for security
- Unpredictable security costs and fire drills

## Our Solution

- Pass your cyber insurance assessment
- See every threat before it becomes a breach
- Employees trained to spot and report attacks
- Dedicated SOC team watching 24/7
- Fixed monthly cost, no surprise bills

## Threats Blocked at Every Point of Entry

### Perimeter

Attackers stopped at your network edge before reaching your systems or data.

### Network

If a threat gets inside, it can't spread. Critical systems stay isolated and protected.

### Access

Only the right people access the right data. Stolen credentials become useless.

### Devices

Ransomware and malware detected and stopped in seconds before files are encrypted.

### Users

Your team becomes your first line of defense, not your biggest vulnerability.

## What's Included

- 24x7 Security Monitoring
- SIEM Log Aggregation
- CrowdStrike EDR/MDR
- ThreatLocker Application Control
- Intune Device Management
- Identity Protection (Entra MFA)
- Email Threat Protection
- Security Awareness Training
